
Potato Chips Packing Machine

01 Vacuum Nitrogen Filling Potato Chips Packing

This process is preventing air penetrating into bags to keep potato chips fresh long time. It is applied in a small scale potato chips French fries making plant.

Fried Potato Chips Nitrogen Filled Packing machine seals chips and fries in bags with full nitrogen; it would not react with oxygen so that potato chips can keep fresh for a long time without any taste losses.

Technical data

Specification	Power	Packing Capacity	Sealing Size	Weight	Dimension
DZ400-2S	1KW	60-160Tims/h	400*10/2mm	180Kg	1050*650*885mm
DZ500-2S	2KW	90-360Tims/h	500*10/2mm	230Kg	1220*680*900mm
DZ600-2S	2.2KW	90-360Tims/h	600*10/2mm	320Kg	1425*720*950mm

02. Automatic Potato Chips Packing Machine

Automatic Potato Chips Packing Machine is applied in a industry potato chips French fries making plant with automatic weight count and packing.

The chips are conveyed to a chips automatic packaging machine with a scale. As the pre-set weight of chips is measured, a metal detector checks the chips once more for any foreign matter such as metal pieces that could have come with the potatoes or been picked up in the frying process.

Technical data

Specification	Power	Max Film Width	Packing Speed	Weight	Height
QZ-10	4.754KW	420mm	50 packages/min	1100Kg	3308mm
QZ-14	7KW	730mm	45 packages/min	1500Kg	3808mm
